

Helping Vets With Pet Cancer Care

www.thepetoncologist.com

Online Pet Oncology Services

At The Pet Oncologist, Dr. Catherine Chan offers veterinarians worldwide online pet cancer advice and support, Monday to Friday, 9 am to 3 pm AEST. Consultation reports are provided for all online cases.

We prioritise comprehensive care and personalised attention to every case. Our services are designed to provide veterinarians with the information and support needed to navigate the complexities of pet cancer care.

Due to veterinary licensing legislation and legal requirements, we exclusively provide online advice to veterinarians. We do not offer online consultations or advice directly to pet owners or the general public. Valuing the veterinarian-client-patient relationship, we collaborate closely with veterinarians to ensure comprehensive guidance. We provide veterinarians with the necessary information to share with pet owners.

About Dr. Catherine Chan

BVSC (Hons I)
FANZCVS (Veterinary Oncology)
DACVIM (Oncology)
Board-Certified and
Registered Specialist in Veterinary
Oncology Q4941

Dr. Catherine Chan is an Australian and American board-certified specialist in veterinary oncology. With extensive experience, Dr. Chan is committed to providing remote veterinary oncology services at The Pet Oncologist. She is dedicated to sharing her expertise to compassionately guide and educate veterinarians through pet cancer care, ensuring the highest level of knowledge and care is delivered to the veterinary community.
