**THE HILTON**  
190 ELIZABETH ST, BRISBANE, QLD

## **THE PET ONCOLOGIST** CHEMOTHERAPY WORKSHOP

Join The Pet Oncologist for a one-day, hands-on chemotherapy workshop in Brisbane. Limited to 10 vets & 5 nurses, this workshop will empower you with the skills & insights required to safely administer oral & injectable chemotherapy. The morning session will commence with engaging presentations, followed by an afternoon of hands-on practice on dummy dog venipuncture leg models & live dogs. Supplier insights, addressing attendee learning interests, & advanced chemotherapy techniques such as intracavitary chemotherapy, will also be covered. You will leave with comprehensive chemotherapy equipment & resources, allowing you to readily implement what you've learned right away!

### **WHAT IS ON OFFER**

- Hands-on Experience
- 1-on-1 Tuition
- Comprehensive Take-Home Chemotherapy Starter Kits
- Exclusive Resources
- Post-Workshop Support
- 14 CPD Points
- Meals and Drinks

## KEY WORKSHOP HIGHLIGHTS

**Hands-on Experience:** Practical training in administering injectable chemotherapy utilising 3 common closed-system transfer devices. Dogs will receive saline & treats, not real chemotherapy.

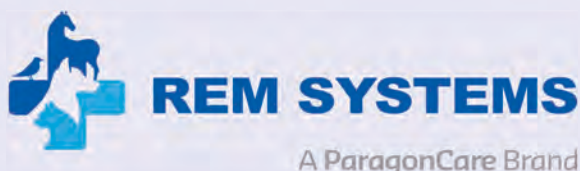

**Comprehensive Chemotherapy Starter Kits:** Receive essential equipment for safe chemotherapy administration, including a chemotherapy tray, Equashield® equipment & consumables for at least 5 treatments, PPE, an extravasation kit, a cytotoxic spill kit, signage, cytotoxic bags, cytotoxic stickers & a cytotoxic bin, etc.

**Exclusive Resources:** Access training manuals, 96 chemotherapy drug information sheets (valued over \$1,500), supplier information, & other resources exclusively available to workshop participants.

**Post-workshop Support:** Real-time Zoom guidance & support available for your first chemotherapy treatment. We can check your set-up, help source chemotherapy drugs or consumables, & provide cancer case consultation & advice.

**Addressing Attendee Learning Interests:** Customise the program based on attendee preferences by letting us know what you want to learn!
