THE PET ONCOLOGIST CHEMOTHERAPY WORKSHOP

Join The Pet Oncologist for a one-day, hands-on chemotherapy workshop in Brisbane. Limited to just 10 veterinary delegates, this exclusive and interactive workshop will empower you with the essential skills and insights required for the safe administration of oral and injectable chemotherapy to pets. The morning session will begin with engaging interactive presentations, followed by an afternoon featuring live dog demonstrations involving administration of injectable chemotherapy. By the conclusion of this workshop, veterinarians will be fully prepared to administer chemotherapy in their clinical practice.

WHAT IS ON OFFER

- Limited places to optimise 1-on-1 Tuition
- Hands-on Experience
- Comprehensive Chemotherapy Starter Kits
- Exclusive Resources
- Meals and Drinks Provided

Scan to book

PROGRAM	8.30 AM	Registration. Tea and Coffee.
	9.00 AM	First presentation: 'Chemotherapy safety in veterinary practice' including hands-on demonstrations.
	10.30 AM	Morning tea.
	11.00 AM	Second presentation: 'How to administer injectable chemotherapy' including hands-on demonstration using Equashield®, PhaSeal™, and Chemfort™ closed-system transfer devices.
	12.00 PM	First live dog demonstration.
	1.00 PM	Lunch at the Vintaged Restaurant.
	2.00 PM	Hands-on live dog demonstrations.
3.30 PM	Afternoon tea.	
4.00 PM	Q&As. Further hands-on demonstrations (if required).	
5.00 PM	Workshop concludes.	

KEY WORKSHOP HIGHLIGHTS

- **Hands-on Experience:** Participants will gain practical experience in administering injectable chemotherapy to live dogs, using three common closed-system transfer devices: Equashield®, PhaSeal™ & Chemfort™. For ethical reasons, dogs will receive saline instead of chemotherapy.
- **Comprehensive Chemotherapy Starter Kits:** Attendees will receive all the essential equipment required to safely begin chemotherapy administration. This includes Equashield® equipment for at least three administrations, personal protective equipment (PPE), an extravasation kit, a cytotoxic spill kit & laminated signage.
- **Exclusive Resources:** Participants will gain access to vital training manuals & receive all 96 of The Pet Oncologist's chemotherapy drug information sheets, valued at \$1,440. Additionally, attendees will receive information on suppliers & other resources exclusively available to workshop participants.
